Summary

Frontend and JavaScript Engineer with 5 years of experience building scalable, accessible web applications using React, Next.js, Vue.js, and Svelte. Experienced in building and owning design systems end-to-end, including design tokens, component libraries, and documentation. Applies UX fundamentals such as information hierarchy, interaction patterns, and accessibility standards to engineering decisions. Experienced collaborating with design, product, and backend teams in Agile environments.

Experience

- | | |
|---|-------------------|
| Software Engineering Fellow, ALX-Africa | 11/2022 – 01/2024 |
| <ul style="list-style-type: none">• Gained experience in JavaScript, Python, Git, and frontend frameworks.• Applied software architecture principles to build scalable solutions.• Contributed to full-stack projects in remote team environments. | Remote |
| Open Source Contributor, Outreachy / Mozilla | 11/2023 – 11/2023 |
| <ul style="list-style-type: none">• Contributed to open source projects at Mozilla specifically Balrog release management system.• Implemented features, fixed bugs, and improved documentation with a global team. | Remote |
| Frontend Engineer, Hitech Solutions | 05/2022 – 11/2022 |
| <ul style="list-style-type: none">• Developed the Royal Grocery Shoppa e-commerce platform using Next.js, React.js, and Tailwind CSS.• Built reusable UI components to improve code efficiency and consistency.• Integrated Material UI components to accelerate UI development and create a cohesive design language.• Delivered a responsive, accessible user experience in collaboration with the product team. | Remote |
| Frontend Engineer, Sycamore NG | 11/2021 – 04/2022 |
| <ul style="list-style-type: none">• Built user-facing features with Vue.js and Tailwind CSS. Utilizing Chart.JS to visualize complex financial analytics charts.• Followed Agile development practices to improve delivery speed.• Participated in code reviews and debugging to maintain code quality. | Remote |
| Software Engineering Fellow, Tech4Dev | 03/2021 – 03/2022 |
| <ul style="list-style-type: none">• Built responsive web interfaces with React, JavaScript, and SQL.• Prioritised accessibility and performance to support a wider user base. | Remote |
| Frontend Engineer, Okapi Sports | 09/2025 – 03/2026 |
| <ul style="list-style-type: none">• Built and maintained frontend features for Okapi's sports tech platform using React, Svelte and TypeScript.• Created the Okapi's design system including design tokens, component library, and usage documentation.• Collaborated with design and backend teams to deliver responsive, accessible UI components. | Remote |

- Integrated Chart.JS to visualize sports analytics dashboards, rendering real-time performance data.
- Championed frontend best practices including code reviews, testing, and CI/CD integration.

Skills

Languages & Frameworks

- JavaScript
- TypeScript
- React.js
- Next.js
- Vue.js
- Svelte
- HTML5
- CSS3

State Management

- Redux
- Context API
- Zustand

UI/UX

- Design System
- Information hierarchy
- Interaction patterns
- Accessibility (WCAG)
- Figma and responsive design.

Tools & Workflow

- Git
- GitHub
- Vite
- CI/CD
- RESTful APIs
- Agile, Scrum

Form Management

- React Hook Form
- Formik

Styling

- Tailwind CSS
- Shadcn
- CSS Modules

Design Systems

- Design tokens
- Component library architecture
- Figma
- Wireframing
- Prototyping

Testing

- Cypress
- Jest

UI Component frameworks

- Material UI
- Chakra UI
- Bootstrap

Charts and Data Visualization

- D3.JS
- ChartJS

Projects

Yuno [🔗, yuno.somethinglabs.io](https://yuno.somethinglabs.io)

- Design system toolkit that generates font pairings based on typographic theory, optically balanced colour palettes, and a shareable component library.
- Built with React; includes a font pairing engine, nine-stop colour system with contrast validation, and live component previews.
- Supports one-command config export for use in any React project.

Education

BSc Human Nutrition and Dietetics, Meru University of Science and Technology

09/2015 – 02/2021

Languages

English
Fluent

Swahili
Native

Certifications

**ALX Software Engineering
Certificate | ALX-Africa**
January 2024

**Women Techsters Fellowship,
Class of 2022 | Tech4Dev**
March 2022
